Release Notes

New Version Overview

PaletteOS 10.6.5 is identical to version 10.6.4 in a safe double-click installer. Previous versions required copying to the hard drive and rebooting. This version shall be installed by copying to the hard drive and double clicking on the installation file. See "[Revised Installation Procedure](#)" for details.

Revised Installation Procedure

Following the installation procedure below to download, install, and run Palette 10.6.5 OS.

- Step 1. Download the upgrade file (file name: **PaletteOS10.6.5.exe**) from the website.
- Step 2. Copy the software file onto a USB key.
- Step 3. Plug the USB key into the console.
- Step 4. On the console, close the Palette console software. The Control Panel will launch.
- Step 5. From the Control Panel, open up Windows Explorer or File Manager.
- Step 6. Select the inserted USB key in the folders list.

- Step 7. Select the upgrade file (PaletteOS10.6.5.exe)
- Step 8. Press **Ctrl C** to Copy.
- Step 9. Select the **D:\SavedInstalls** folder on the console's hard drive.
- Step 10. Press **Ctrl V** to Paste. The file should copy from the USB key to the console's hard drive.
- Step 11. Unplug the USB key.
- Step 12. Double click on **D:\SavedInstalls\PaletteOS10.6.5.exe**.
- Step 13. Follow all prompts to run the upgrade program.
- Step 14. The console will need to be rebooted to complete the installation.
