Phase Loss Sense Panel
3-Phase, Feeder Power Sensing

The 95250 Phase Loss Sense Panel monitors 3-phase feed power and provides two independent contact-closure outputs (either Normally Open or Normally Closed) when any phase is lost. The contact-closure outputs may be connected to any Strand Lighting compatible lighting control panel or dimmer rack to signal an “Emergency” power loss condition.

The 95250 may be used with Strand Lighting A21 Dimming Panels, Lighting Control Panels, Contact Relay Panels, or C21 Dimming Cabinets.

The 95250 Phase Loss Sense Panel provides a UL924 compliant solution for emergency lighting systems.

Features

- ETL Listed to UL924 for emergency circuit phase loss sensing
- Independent neon indicators for each phase present
- Test Switch activates contact-closure outputs
- Provides two independent contact-closure outputs; for either normally open or normally closed applications
- Front accessible individual fuses for all phases
- Complements A21 dimming, Contact relay, or C21 dimming systems
- Durable, steel construction that easily mounts near lighting control panels or cabinets
- Designed and manufactured in the USA
### Specifications

#### Operational Specifications
- **Power Input:** 3-Phase, 4-Wire (with ground) 208Y / 120VAC, 50/60 Hz, 20 Amp per Phase
- **Connection Rating:** 24VDC, 100 mA (Panic and Normal Connections)
- **Short Circuit Rating:** 10,000 AIC
- **Fuse Protection:** 3 Each, 3AG, 250VAC 0.25 Amp Slo-Blo Replaceable Fuses
- **Phase Sensing:** A, B, C

#### Environmental Specifications
- **Compliance:** ETL listed to UL924
- **Operating Temperature:** 32° to 104° F (0° to 40° C)
- **Operating Humidity:** 5 to 95% Non-condensing
- **Enclosure:** NEMA Type 1 (Indoor Use Only)
- **Mounting:** Surface mount, 4 holes (mounting hardware not provided)
- **Size:** 10 in. (W) x 12 in. (H) x 4 in. (D)
- **Weight:** 9.7 lbs (4.4 kg)
